### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: claims 5-8 have been canceled.

The following is an examiner's statement of reasons for allowance: the prior art of record teaches an image display device comprising: an image display panel module; a middle frame which places the image display panel module thereon; and an upper frame which is engaged with a side face of the middle frame by way of an engaging portion in a state that the upper frame covers a periphery of the image display panel module, wherein the engaging portion includes projecting portions on a side face of the middle frame, the projecting portions being smoothly raised in the direction opposite to the image display panel module and forming a sharp stepped portion which follows a raised portion, and pawl portions which are formed on portions of the upper frame which face the projecting portions, the pawl portions being bent along side faces of the stepped portions of the projecting portions. The prior art of record does not teach nor suggest, in combination with the limitations supra, the pawl being bent such that the pawl portions extend while having substantially arcuate curved faces which have one ends thereof in the vicinity of bent portions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James A. Dudek whose telephone number is 571-272-2290. The examiner can normally be reached on 9:00-5:30.
